

Job Title:

## DevOps Engineers - Automation Wizards

---

Are you an experienced DevOps Engineer with a passion for automation and scalability? Are you looking for a new challenge that will push you to the limits of your technical skills and creativity? At Mediastalker DevOps Engineers are called Automation Wizards; you will be responsible for building and maintaining our cloud infrastructure and automated deployment pipeline. You will work closely with our engineering and product teams to ensure our systems are scalable, reliable, and easy to deploy.

### Responsibilities:

- Build and maintain our cloud infrastructure, using tools such as AWS, Azure, or GCP
- Develop and maintain our automated deployment pipeline, ensuring our code is tested, built, and deployed quickly and reliably
- Work closely with our engineering and product teams to design and implement solutions that meet our business needs
- Ensure our systems are secure, reliable, and scalable, and implement monitoring and alerting solutions to detect and resolve issues quickly
- Develop and maintain configuration management tools, such as Ansible, Chef, or Puppet
- Stay up-to-date with the latest DevOps trends and technologies, and recommend new tools and techniques to improve our development process
- Write high-quality, clean, and maintainable code, adhering to software engineering best practices and standards

### Qualifications:

- 3+ years of experience in DevOps, with a focus on automation and cloud infrastructure
- Strong understanding of cloud infrastructure, networking, and security, with experience in AWS, Azure, or GCP
- Expertise in containerization technologies such as Docker and Kubernetes
- Experience with configuration management tools, such as Ansible, Chef, or Puppet
- Strong understanding of software engineering best practices and experience with version control systems, such as Git
- Proven track record of delivering high-quality, automated solutions on time and on budget
- Bachelor's degree in Computer Science, or a related technical field
